## DATASHEET

10,000:1

WXGA

3000 lm

This affordable LCD projector offers colours that are three times brighter<sup>1</sup> than standard 1-chip DLP projectors. Together with its WXGA resolution, 1.2x optical zoom and 3,000 lumens, small businesses and classrooms can ensure their projections offer crisp, clear images in a variety of light levels.

### High quality, bright and vibrant images

This LCD projector effortlessly displays bright images with vivid colours for a crisp, clear picture: ideal for presentations and moving images, and is aided by the 10,000:1 contrast ratio. With an HDMI input, high definition video and audio content are easily played with the same high quality you would expect from the world's number one projector manufacturer<sup>2</sup>.

### Ethernet projector

The Ethernet connectivity allows you to control and monitor the projector and display your content across a LAN network.

### More control and collaboration

With the moderator function, you can easily allow others to connect and share their content over your LAN. You remain in complete control and can choose when to display content – ideal for interaction in a collaborative teaching or training environment.

### User-friendly

Thanks to its manual keystone slider – unique to Epson – and automatic vertical keystone correction, this projector is quick and simple to set up. No matter the angle of the projector, you can easily align the projection to ensure a straight and correct image. The Colour Universal Design makes operating the projector easier, thanks to new LED colours and menu icons on the projector's control panel.
